OK I downloaded the new documents referenced in the amended license Administrative Conditions 9.2: July 3, 2014 (Accession No. ML14191A034); and September 25, 2014 (Accession No. ML14295A299).

I will share the folder containing those documents.

Sounds good—I will take a closer look at these documents and the changes you have flagged already.
Thanks!

Thank you Valois! It looks like there might be some edits to the decommissioning/decontamination/reclamation plan.

Subject: Nov 1, 2016 amended license with changes noted

In case you need this info for future reference, I noted where the changes are in the NRC amended license. The amendment to the Safety Evaluation Report explains that requirements have been removed from the license related to financial assurance (9.5) and the revised decommissioning, decontamination, and reclamation plan (12.23) because Powertech has met these requirements with information added to the end of the list under administrative condition 9.2.
